Illegal Access to Yahoo! JAPAN Servers in May

- There is a possibility that a maximum of 22 million IDs were leaked.
- Within the above, 1.49 million IDs might have accompanied their non-invertible coded password and some of the information needed to re-settle the password.

Security Enhancement After the Illegal Access

1. Tighten authorization process for servers
2. Strengthen countermeasures for malware
3. Stricter log monitoring
4. Educate employees to focus on security issues

FY2013-1Q Highlights

– Marketing Solutions Business (1)

Promotion advertising

(Paid search advertising [Sponsored Search] and interest-based advertising [Yahoo! Display Ad Network](YDN))

- Promotion advertising revenue rose 21.7% from the first quarter last year, supported by substantial growth in paid search advertising revenue and interest-based advertising revenue. The driving forces behind this revenue growth were aggressive sales activities based on strengthened collaboration with advertising agencies and continued efforts to reinforce functions to improve advertising effectiveness.
- Smartphone advertising revenues expanded substantially year on year.

Premium advertising

- Premium advertising revenue declined compared with the first quarter last year. Although, revenue of Brand Panel increased because of the introduction of Rich Ad, a new form of advertising expression, overall premium advertising revenue was down because of the decline in revenues of Display Panel and other advertising products.

Information listing revenue

- Yahoo! Real Estate revenue rose compared with a year earlier.
- With the December 2012 termination of the contract with Recruit Holdings Co., Ltd., Indival, Inc.'s operations have become the core for developing recruiting-related operations. Revenue declined compared with the same quarter last year.

e-commerce-related revenue (Pay digital content and others)

- Game-related revenue rose substantially from the first quarter last year. Besides the business alliance formed with GREE, Inc., favorably growing revenues of Yahoo! Mobage and other services also contributed to the growth in game-related revenue.

FY2013-1Q Highlights

– Consumer Business

e-commerce-related revenue (YAFUOKU!, Yahoo! Shopping)

- The overall transaction value of YAFUOKU! expanded year on year because of such factors as greater demand for high unit price items prompted by the recovery in the Japanese economy and the upgrading of the smartphone application.
- Although the overall transaction value of Yahoo! Shopping declined slightly compared to the first quarter last year, its smartphone transaction value rose year on year.

Membership services revenues

- Yahoo! Premium revenue rose year on year because of an October 2012 upward revision in membership fees and an increase in the number of Yahoo! Premium members with the start of registration through Softbank shops. The number of Yahoo! Premium membership IDs on June 30, 2013 climbed to 9.31 million IDs.
